PAID PARKING

No Field Counterpart

1. A program instituting fees for parking space provided by the U.S. Government to employees takes effect 1 November 1979. This program, presented in OMB Circular A-118, is designed to encourage personnel to join carpools and increase use of public transportation. The goal of the program is to conserve energy and reduce air pollution and traffic congestion. Parking fees have been established by GSA for each area based on comparable commercial rates and/or GSA standard level user charges. Fees will be charged at 50 percent of the full rate for the period 1 November 1979 through 30 September 1981; the full rate will apply thereafter. Where rates are assessed at less than \$10.00 per month, no fee will be charged. For the present, this applies to parking at the Headquarters Building [redacted] and facilities located in the [redacted] area.

STAT

2. The GSA implementing regulation provides for certain exemptions from parking fees. Van pools (vehicles carrying eight passengers or more) are exempt from fees for the first year. Handicapped personnel utilizing specially equipped vehicles, shift workers, and two-wheeled vehicles are exempt. In addition, there is no charge for visitor parking. Personnel normally participating in a carpool or using public transportation may obtain a daily permit for the visitor parking facility on the occasional day they must drive their own vehicle. These permits will be available through the component support office. Use of the visitor parking area will be closely monitored to ensure this privilege is not abused.

3. In the Washington metropolitan area, GSA has established the following schedule of fees:

	Full	50% Level
[redacted]	\$80.00	\$40.00
[redacted]	33.00	16.50
2430 "E" Street, N.W.	40.00	20.00

STAT

For these areas, a single fee structure is established for each facility regardless of the location of the parking space. Fees will be charged on a monthly basis, and no refunds will be provided for partial use of the monthly permit. Parking fees will be paid through the Office of Finance representative at each facility in the month prior to use. The
